# ishka FORUMS

Ishka Forums are laser-focused, closed-door sessions inside Ishka Events. The content is highly tailored for specific job functions across aviation finance – delivered by market leading experts. Participants must be registered in advance to ensure the most productive networking and learning experience.

## WHY ATTEND:

**TARGETED CONTENT** – Each Forum is designed for a specific audience to ensure the most valuable content is covered in the most useful way. They can range from interactive workshops to in-depth technical presentations.

**TARGETED NETWORKING** – Because attendees are preregistered and focused, it is even easier to meet with decision making prospects, peers or other contacts.

**CLOSED DOOR** – Some things just can't be said on the main stage. As Ishka Forums have a preselected and specific audience, the conversations are truly candid.

“

In many aviation conferences, the sheer volume of attendees can often be overwhelming. However, Ishka conferences stand out. Its unique size strikes the perfect balance, allowing for meaningful networking. Overall, I found the event to be incredibly helpful.”
