AFRICA INFRASTRUCTURE, ENERGY & NATURAL RESOURCES FINANCE

Join us as we celebrate the union of three powerhouse brands, championing Africa like never before! Our collaboration brings together the expertise of **TXF's export and commodity finance**, **Proximo's project finance**, and **Uxolo's development finance**, offering a truly exceptional in-person event that caters to a diverse range of professionals. Get ready for an immersive experience designed to maximize networking opportunities at every turn.

Mark your calendars for 24-25th October 2023, as this unparalleled opportunity allows you to end the year on a high note and kickstart 2024 with fresh connections, invaluable business insights, and a competitive edge. With nothing quite like it currently available in the market, expand your horizons, forge valuable connections, and stay ahead of industry trends by immersing yourself in this unique offering.

Over the course of two days, the event will feature four distinct streams, each focusing on a specific area of finance:

- Export Finance
- Project Finance
- Development Finance
- Natural Resources & Commodities Finance

While these asset classes intersect, each department will dedicate time to delve into their unique challenges and themes. Our comprehensive coverage leaves no stone unturned, ensuring you stay up to date with the latest industry trends. To give you a glimpse of what to expect key themes include:

The role of ECAs and DFIs in plugging Africa's infrastructure gap

'Just' Transition: Ensuring equitable and sustainable energy transition in Africa whilst preserving the value of the continent's resources.

Energy Transmission: Addressing poor energy transmission infrastructure in South Africa and beyond.

Healthcare and Social Infrastructure: Investing in vital healthcare and social infrastructure.

Renewable development across the continent: Scaling up renewable energy efforts with relevant agencies' involvement.

Role of Local African Institutions: Harnessing local knowledge for successful project implementation.

Financing Transportation Infrastructure: Meeting government financing needs for transportation projects.

Challenges Faced by Eskom: Analyzing issues with South Africa's energy utility, Eskom.

Addressing food security challenges faced by commodity traders and the crucial role of DFIs in supporting solutions.
