

DEALS OF THE YEAR AWARDS 2020

THE PERFECT 10

Overview

The trade, export and commodity finance industries are special – they make a true contribution to the real economy. To receive a Perfect 10 award is an incredible achievement.

TXF is now open to receive Deal of the Year submissions for 2020!

Deal submissions can be submitted by any party involved in the transaction – from arrangers, lenders, borrowers, exporters, importers, advisers, investors, lawyers and other service providers in the market.

We are looking for the most innovative, market influencing transactions within trade, commodity, ECA/DFI-backed and project financing. Deals must have been signed **within calendar year 2020**.

If you and your team have contributed to something praiseworthy this year, please nominate your deals. Alternatively, vote for someone else's deal you think deserves to be commended. Winners will be announced publicly in March 2021. To participate, just follow the steps below.

1

Submit your deal by email

Deadline for submissions – 22 January 2021

We need to know why you think the deal should be considered for a Perfect 10 Award for 2020. Please provide us with at least a paragraph on what makes the deal stand out.

Download our [Excel submissions form](#), or if you'd rather, you can include the same information as an attachment in Microsoft Word, PDF or PowerPoint.

If the deal has already been submitted to us via tagmydeals, please let us know that, but also provide some of the additional deal detail listed below for the Deals of the Year submission process. You do not need to contribute each nomination to a specific category.

Please include the following details:

- Name of the deal being nominated
- Details of all arrangers and their roles
- Borrowers and guarantors
- Amount (including tranches) and tenor
- What type of financing structure
- Corporates involved (producers, offtakers, exporters, importers, equipment providers, contractors, project sponsors)

- At least a paragraph about why do you think this deal should be considered as one of the best?
